

Remote Learning Activities

Subject: 4th Grade Math

Directions: Check GoogleClassroom and post an answer to the 'Attendance Question' on the 'stream' each day.

1) Do the assigned IXL skills for the day to a Smart Score of 90-100 (make sure you are logged into your IXL account). When working on these IXL skills, you do not need to spend more than a total of 45 minutes on both. If the skill is too challenging, check out the bottom of the screen where it says "Not feeling ready yet? These can help:".

2) Fridays there will be a "Math Friday Assessment" in GoogleClassroom that needs to be completed and turned in.

If you have already completed the assigned IXL skill, pick a skill of your choice to complete
